

SQUARE 50

Design R&D De Castelli

La ripetizione del modulo quadrato si combina con l'effetto tridimensionale creato dallo spessore variabile delle singole tessere. Luci e ombre increspano lo spazio con l'inedito esito cromatico conferito dalle finiture DeLabré. L'estrema libertà compositiva permessa dal formato offre al progettista la possibilità di immaginare soluzioni architettoniche sia in verticale che in orizzontale.

The repetition of the square module is combined with the three-dimensional effect created by the varying thickness of the individual tiles. Light and shadow ripple across the space with a wholly original chromatic effect conferred by the DeLabré finishes. The total compositional freedom the format provides the designer with the opportunity to create architectural solutions in both vertical and horizontal planes.

SQUARE 50

Mosaico a giunto unito con tessere quadrate 5 x 5 cm a spessore variabile. Le tessere in ottone, rame e acciaio inox sono preassemblate su rete in fibra di vetro a formare una mattonella, idonea per l'installazione a parete o a pavimento.

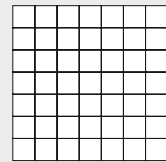

Butt-jointed mosaic comprising 5 x 5 cm square tiles of varying thickness. The brass, copper and stainless-steel tiles are pre-assembled on a fiberglass mesh to form a panel which is suitable for wall or floor installation.

SQUARE 30

Design R&D De Castelli

La dimensione contenuta dei moduli determina la complessità del tessuto musivo, che qui assume nuova profondità e dà vita ad una composizione poetica fatta di piccole e continue variazioni cromatiche e tattili. Square 30 combina la geometria rigorosa ed essenziale del modulo quadrato con la ricchezza delle ossidazioni De Castelli, in un equilibrio formale di grande eleganza.

The reduced dimensions of the modules determine the complexity of the mosaic design, expressing even greater sense of depth and giving life to highly poetic composition comprising small and infinitely- varied chromatic and tactile variations. Square 30 combines the rigorous and essential geometry of the square module adorned with the richness of the De Castelli oxidation effect, to create a formal balance of great elegance.

SQUARE 30

Mosaico a giunto unito con tessere quadrate 3 x 3 cm a spessore variabile. Le tessere in ottone, rame e acciaio inox sono preassemblate su rete in fibra di vetro a formare una mattonella, idonea per l'installazione a parete o a pavimento.
