- + **STITCHING**
- + **FREEDOM OF  
COMPOSITION**
- + **DÉJÀ-VU**

\_\_\_ “Il lavoro del patchwork fa parte di una tradizione antica del fatto a mano in cui l’insieme degli elementi crea un gioco geometrico sempre unico. Sfogliando un vecchio libro inglese di patchwork ho scoperto il quilt: una trapunta che unisce i patchwork attraverso una cucitura che è essa stessa decoro.”

*“Patchwork belongs to an age-old hand-crafted tradition, in which the combined pieces always create a unique geometrical pattern.*

*Looking through an old English book on patchwork I discovered the art of quilting, in which patchwork pieces are combined by stitching which is decorative in its own right.”*

Marialaura Rossiello

\_Quilt è un mosaico in grès in cui i tasselli possono essere posati regolarmente ricreando la forma geometrica, o random, creando una posa irregolare che richiama le antiche pavimentazioni in seminato.

*Quilt is a stoneware mosaic in which the modules can be installed uniformly, for a geometrical effect, or at random, in an uneven layout that recalls antique Venetian Seminato pavings.*

\_La classica tessera del mosaico, con Quilt aumenta la sua dimensione per creare effetti visivi contemporanei di volta in volta personalizzabili proprio come un'opera fatta a mano. Le diverse proposte di colore e texture aumentano tali possibilità.

*With Quilt, the traditional mosaic chip is expanded in size to create contemporary visual effects which can be personalised every time, just like a hand-stitched piece. The different colours and textures available enhance this potential.*

Quilt Chalk Cameo TV.013CQ

+  
> **Quilt** Chalk Ochre TV.013AQ

**Quilt nasce da un quadrato 9x9 cm in grès porcellanato a tutta massa incisa in maniera da separare, una volta stuccato, uno spicchio dal resto della materia.**

Quilt si sviluppa su tre toni base: Chalk, Clay e Mud.

Ogni colore è disponibile nella variante liscia e nella variante strutturata (RAW).

La gamma si arricchisce con alcune varianti in cui lo spicchio assume colorazioni diverse: Ochre, Cameo, Sugar Paper per Quilt Chalk, Mud per Quilt Clay e Slate per Quilt Mud.

I quadrati 9x9 cm possono essere posati in maniera regolare per creare una sequenza di figure geometriche, o in maniera irregolare, ricordando un seminato contemporaneo. Nella posa irregolare suggeriamo di utilizzare al 50% Quilt a tinta unita e al 50% la versione con spicchi colorati.

Il prodotto deve essere posato mantenendo una fuga di 3 mm tra i moduli con i distanziali forniti all'interno della confezione.

**Quilt is produced as a 9x9 cm square of through-body porcelain stoneware scored so that a segment can be broken off from the rest of the material after grouting.**

Quilt is available in three base shades: Chalk, Clay and Mud.

Each colour is available in smooth and structured (raw) variants.

The range includes variants in which the detachable segment is in different colours: Ochre, Cameo and Sugar Paper for Quilt Chalk, Mud for Quilt Clay and Slate for Quilt Mud.

The 9x9 cm squares can be installed in a regular pattern to create a sequence of geometrical figures, or unevenly in a contemporary form of Venetian Seminato. In random layouts, we recommend use of 50% whole-colour Quilt and 50% coloured segment version.

The product must be installed with a 3 mm joint between modules, with the aid of the spacers supplied in the pack.

**MARIALAURA ROSSIELLO**  
STUDIO IRVINE

---

Studio Irvine è uno studio di design con sede a Milano gestito dall'architetto Marialaura Rossiello Irvine. Fondato nel 1988 dal designer britannico James Irvine (1958-2013), lo studio rimane fedele al suo approccio progettuale e al suo metodo in una combinazione di ironia e precisione.

Basato sull'idea di design ispirata dall'attenzione all'etica, al "fattore umano" e all'interazione personale, Marialaura Rossiello ha una visione in costante evoluzione, radicata nei classici della scuola di design italiana ma con una visione internazionale più ampia. Per alcuni anni ha collaborato con marchi di design italiani e si è abituata a considerare il prodotto nell'ambito di un processo aziendale globale. Nel 2011 è diventata partner dello Studio Irvine, dove i prodotti industriali sono stati il cuore pulsante del design.

Oggi il suo lavoro è distintamente interdisciplinare con una grande curiosità verso tutti i tipi e dimensioni di progetti di design: design di prodotti, interni e strategici, con clienti come Muji, Yamakawa, Thonet, Offecct, Amorim, Matteo Brioni, Baleri Italia e altri..

*Studio Irvine is a design studio based in Milan and run by the architect Marialaura Rossiello Irvine. Founded in 1988 by British designer James Irvine (1958-2013), the studio remains faithful to his design approach and method in a combination of irony and precision.*

*Based on the idea of design inspired by attention to ethics, the 'human factor' and personal interaction, Marialaura Rossiello is instilled with a vision in constant evolution, rooted in the classics of the Italian design school but with a broader international outlook. For a number of years, she collaborated with Italian design brands, and grew accustomed to consider the product within a comprehensive corporate process. In 2011 she became partner of Studio Irvine, where industrial products were the throbbing heart of design.*

*Today her work is distinctively cross-disciplinary with a great curiosity towards all types and scales of design projects: product, interior and strategic design, with clients such as Muji, Yamakawa, Thonet, Offecct, Amorim, Matteo Brioni, Baleri Italia, and others.*

# moodboards.

**Un nuovo capitolo di relazioni tra materiali, pitture murali e stucchi produce nuove possibilità grazie all'introduzione del grès porcellanato.**

Questo materiale, inedito per Mosaico+ e utilizzato da noi sempre in piccoli formati, permette al progettista di scegliere all'interno della gamma tra proposte adatte ad un impiego a pavimento e soluzioni destinate al rivestimento, secondo la chiave di lettura delle 10 famiglie colore.

***This is a new chapter in the relationship between materials, wall coverings and grouts, and it allows new possibilities thanks to the introduction of grès.***

*Grès is a brand new material for Mosaico+: it allows architects to choose both floor and covering solutions following the brand's 10 family color.*
